

# Movement To Hike Firemen's Salary Halted By Council

Measure Is Tabled Pending Check of Petitions Calling for Special Election on Question.

## TWO WEEKS' DELAY IN ACTION CERTAIN

Sharp Debate Precedes Tabling of Proposals— Clerk To Check Signatures on Lists.

After sharp debate lasting nearly an hour, council Monday afternoon, by a vote of 17 to 13, tabled an ordinance providing for increasing salaries of members of the city fire department. By a vote of 18 to 13, council then referred a petition for an election to the city clerk to check the list of names on the petition with the city registration list.

Salaries proposed for the firemen are the same as now paid mail carriers by the Atlanta post office. A sliding scale of salaries is provided as follows: First-year men, 141.06; second year, \$150; third year, \$158.33; fourth year, \$166.66 and after four years \$175. A petition asking that the salary increase be referred to the people in an election was submitted to council. It was stated that more than ten per cent of the registered voters had signed the petition asking for the election.

**Opponents Delay Move.**  
City Attorney James L. Mayson ruled that the petition was an initiative measure and as such required ten per cent of registered voters and called for an election in 30 days.

By referring the petition to the city clerk for checking a delay of two weeks was obtained by opponents of the measure.

The city attorney ruled that council was required to call the special election if the check of the city clerk shows that the required ten per cent of signatures is attached to the petition asking for the election.

The ordinance was introduced by Alderman J. Allen Couch, who said he introduced it by request and would oppose its passage.

The measure provides that in case salaries of mail carriers are increased that salaries of firemen will be automatically increased also.

### Officers' Pay Basis.

The basis of \$175 a month is used in the measure in ascertaining the amount of salaries to be paid officers in the fire department. These ratios run from 6 per cent to 46 per cent in addition to the \$175 basis.

Petitions calling for the election were circulated recently by members of the fire department.

When the list is checked the petition will be brought before council again and under the law council will be required to order the election provided the required number of signatures are attached to the petition.

### Meet Again Thursday.

Because of the long time required for discussion of the ordinance provided for a referendum on the question of increasing the salaries of firemen, council did not finish its work Monday but adjourned to meet again at 3 o'clock Thursday afternoon.

Just before adjournment an ordinance was introduced providing for creation of a bond commission composed of one member from each of the wards in the city and three members from the city at large to supervise expenditure of suggested consolidated bond issues. The measure was referred to the special bond committee of council.

# ATLANTA IDEAL FOR MOVIE FILM

Voting Begins for Atlanta Girl To Take Leading Roll in Film To Be Made Here.

Preparations for filming the comedy to be staged in Atlanta, and in which a leading part will be taken by some Atlanta girl to be selected through a contest sponsored by The Constitution, are moving forward rapidly. J. B. Brolund, "featherweight comedian," who is to produce the comedy, declared Monday Atlanta is an ideal place in which to make motion pictures.

Votes for contestants who will take part in the competition to select an Atlanta girl to take part in the picture, began rolling in Monday very rapidly. Only one day had passed, but voting was brisk. Many more candidates will be nominated today, it is expected.

Aside from the contestants for a featured place in the personnel of the picture there will be places for many others.

Crowd scenes will be needed and extras of various descriptions for use

Muskegon, Mich., November 2.—(AP)—All during today great crowds gathered at the morgue where "Dutch" Anderson's body was taken. So great did the crowd become late in the afternoon that the police had to be summoned and the morgue was closed.

At the same time, hundreds gathered to pay respects to Hammond. Even before Mayor Lincoln Estate issued a proclamation praising Hammond's heroic deed, flags in the business section of the city were at half mast. Funds poured into the trust fund established for the detective's family and a memorial for him.

## ITALIANS CONVINCE MELLON OF DESIRE TO SETTLE DEBTS

First Real Business Session Wednesday—Italians Stress Reduction of Military Expenses.

## 24 MONOGRAPHS ON DEBT STUDIED

Count Volpi Stressed Adverse Trade Balance and Financial Difficulties of Nation.

## BY ROBERT D. LUSK, United News Staff Correspondent

Washington, November 2.—The first formal meeting between the Italian and American debt commissions has convinced Secretary of the Treasury Mellon that the representatives of Premier Mussolini's government have come to the United States with a firm determination to settle Italy's war account.

That the settlement will be based upon Italy's capacity to pay her obligations, representatives of both nations agree. Upon the determination of that capacity rests the success or failure of the conference.

A meeting of minds upon this question will be sought Wednesday morning, when the commissions will hold their joint session. Meantime, the members of the two groups will study documents which have been prepared by both countries dealing with Italy's financial strength.

The commissions were closeted at the treasury department for nearly an hour and a half Monday afternoon. Following the formal exchange of greetings, the commissions discussed various reports on the condition of Italy's economic structure and her ability to transfer the \$2,138,000,000 which the United States is carrying on its books against Italy.

The commissions were concerned particularly with 24 monographs compiled by Italian statisticians and economists. The American commission already has reviewed some of the reports. Tuesday it will review the others and will meet to discuss them at 10 o'clock Wednesday morning. The joint session is scheduled for 11 o'clock.

It was with the findings of these monographs that Count Volpi, Italian

Minister of Finance, and the American commission hope to attract a crowd large enough to justify the imposition of an small an admission charge as possible.

Plans for the new theater have been drawn by Reed and Adler, architects. The associations agreed to finance the construction and to advance the money needed to pay initial costs. Under the finance plan the city is to repay the \$30,000 in three annual payments, the first to be paid in November 1926, the second in November 1927 and the third in November 1928.

The new amphitheater will be constructed on the plan of the outdoor theater used by the Municipal Opera company of St. Louis. By using the same plan, the association hopes to attract a crowd large enough to justify the imposition of an small an admission charge as possible.

**A.M.E. CONFERENCE  
IN TENNESSEE  
ENDS BUSINESS**

Nashville, Tenn., November 2.—(Special)—The Tennessee annual conference of the A. M. E. church, in session here, Bishop Reverdy C. Ransom, presiding, has closed its business sessions.

President J. A. Jones, Turner Normal college, and others addressed the conference. The heavy snow prevented the overflow congregation which has been attending night's session from meeting.

Dr. Julian C. Caldwell, the candidate for Episcopal honors from this state in 1923, assisted the bishop in the dispatch of business of the conference. Secretary of mission, E. H. Collier, of New York, said in his address of the A. M. E. church in the United States and the Isles of the sea was compelled to have more than \$500 in 1926 to perfect its program. Editor G. W. Allen, of the Southern Christian Leader, paid to the conference that he did not intend turning over the Southern Recorder to anyone this side of the general conference.

Ira T. Bryant and his paper, the Alabamian, were in command of the conference. He is among the foremost laymen of the negro race. He furnished the Sunday school literature for the denomination throughout its connection. He found an audience in the negro Minnie, the home and wife, found in the building and on the grounds of more than 100. All the minister and delegates to the annual conference had their meals each day at the Sunday school headquarters. Speaking of the negro race, Dr. Caldwell said: "I think the negro may go to any part of the country, or the world, he wants to, and yet my impression is that the industrious, honest Christian members of our race stand a good chance of making anything of himself that he desires to make, if he has confidence in himself and in God." Said he: "I never make it a rule to discuss or bother with the race problem, whether north or south, we were born in Alabama. The Father and mother live there. And I have great faith in the law-abiding element and the Christian influence of the south."

Bishop Reverdy C. Ransom preached Sunday at 11 o'clock at Bethel, the seat of the conference. Bishop D. Stinson attended at 11 o'clock at the first church, St. Paul. Dr. E. C. Coit, of New York, preached at St. John.

Evangelist Katherine Randolph was at Piney Creek, East Nashville, at platform meetings was held Sunday afternoon at 3 o'clock, with Bishop Ransom, Richard D. Stinson, Rev. E. H. Coit, Rev. E. D. Wittenberg, Rev. W. A. Smith, Rev. R. W. Dr. J. C. Caldwell and Ira T. Bryant as the speakers of the occasion.

The \$1,04,000 bid was presented by Frank C. Munson verbally after his first bid was found to be lower than that of Moore & McCormick.

After hearing arguments as to the admissibility of the verbal bid the board decided to discuss the question in executive session. Both bidders deposited certified checks to cover their bids.

She was taken to the police auto to Gandy hospital. Surgeons stated that except for a number of lacerations and bruises, she was practically unharmed.

The police car contained Capt. Officers Hughes and Bishop and was answering a burglary call at the time of the accident.

"The woman came out suddenly in front of the machine and we could not avoid striking her," the officers reported to Captain Grover C. Fain, of the morning watch.

Ann Arbor, Mich., November 2.—(P) Dr. George C. Little, formerly head of the University of Maine, was installed as sixth president of the University of Michigan today. Representatives of nearly 100 universities, colleges and normal schools all over the country, including the presidents of 22 major educational institutions, attended.

The university, Dr. Little said in his inaugural address, is in no place for study of social problems, because "the environment of carefree, financially well-to-do students, which characterizes our under-graduate groups, does not fairly present problems of automobile, liquor or sex as they will have to be met in later life."

"We cannot train a mind in the development of its physical and aesthetic powers," he said, "in the atmosphere of a veritable Gettysburg of social activities where, after a prolonged artillery preparation of jazz and fast traveling joy rides, a Pickett's charge of 'deadly' party but absorbing gos-

sip' is in progress."

"Over emphasis of, and inattention to, in automobiles, use of liquor and petting among students of our universities must be stopped because it is not the time or place to investigate or decide," he said.

Dr. Little asserted his unqualified support for intercollegiate athletics and said he knew of no substitute to occupy the physical and mental interests of thousands of students interested in such sports.

"In the days of the highly explosive mixture of youth, gasoline and liquor, born swiftly on balloon tires to remote retreats; in an era of college comic publications and terpsichorean efforts to attain the thinest possible ices of decency," he said, "it would be Hercules himself to guarantee a fair substitute, and I believe he cheerfully would admit that the Aegean stables were, in comparison, an early season practice game."

Persistent coughs and colds lead to serious trouble. You can stop them now with Cremosil, an emulsified creosote that is pleasant to taste. Cremosil is a new medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agents for persistent coughs and colds and other forms of throat trouble. Cremosil contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Cremosil is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, orchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. Cremosil Company, Atlanta, Ga. (adv.)

**ROME PASTORS PREPARE

Constitution Bureau.

Rome, Ga., November 2.—(Special)—Rome Methodists are preparing to attend the North Georgia conference in Griffin this year, beginning on November 18, with Bishop U. V. W. Darlington, Huntingdon, W. Va., presiding.

All district churches have named their delegates. Final reports for the year's work for the church of the Rome district are in readiness for presentation at the conference.

Rev. A. B. Elizer, of the North Rome church, is the only pastor who has served four years with his church, all the others having been here for shorter periods. The other ministers from Rome who will attend the conference are: J. P. Erwin, presiding elder; Dr. R. A. Edmonson, First church; W. W. Watkins, Trinity; Rev. A. E. Silver, Second Avenue; Rev. C. Thomas, circuit.

"All members, both lay and clerical, of the conference will vote on the matter of unionization," said Dr. Edmonson in commenting on the coming conference. "Both sides are claiming a majority of the vote. The laymen will vote against the plan of unionization while the ministers will be divided."

Dr. Edmonson said the Rome churches were expected to make especially fine reports this year, if not the best they have made in a number of years.

## Juvenile Crime Conditions Deplored by Judge Howard In Charging November Jury

Appeals to Parents and Churches To Launch Counter-Drive and Advocates Many Reforms.

Starting disclosures of juvenile criminal conditions in Fulton county were made Monday in Judge G. H. Howard's charge to the November grand jury when he declared that 52 per cent of persons coming into criminal courts for violations of the law are under 21 years of age. The judge appealed to parents,

churches and civic organizations to take a hand in combating crime in Atlanta. At the same time, however, the magistrate paid tribute to the law-abiding spirit of Atlantans and stated that there is no great crime wave in the city and that steady improvements are being made in bringing criminals to the bar of justice.

In the charge, Judge Howard also expressed the opinion that the punishment meted out to criminals, as provided under the present law, is too great.

Speaking of the many youths who have committed crimes and are appearing in Fulton criminal courts, Judge Howard said that "the courts

are helpless in a situation like this." "It is up to the churches and civic organizations of the community to help in bringing about an era of law and order," he added. "Lawlessness is running rampant among the youth of the land. It is not because the courts are failing. Functioning well, however, good people of the country, parents, churches and civic bodies, are failing in their duties to youth.

He urged the young to get persons on juries in Atlanta than any other city in the nation. This is conclusive proof that citizens of Atlanta want the law enforced."

Lamenting lack of funds to support

a stronger county and city police organization, Judge Howard declared that he would make a motion to the legislature to have the federal law figure in Atlanta to get secret service men on his trail until he is captured or until the statute of limitations expires.

He knows that he is almost certain to be caught, but when a man starts out to do a job, he is bound to be caught. He will be able to outwit officers and escape detection, the judge added.

"I think, however, in view of our lack of facilities, which the United States courts have, we are making a good show," he declared.

Judge Howard said that he is duty-bound to exert care in handling cases before it during its term. In this connection he declared that "there are too many cases that get on the criminal dockets."

"These cases cost the county thousands of dollars to try," he pointed out. "They could have been ended in the grand jury room. There are many cases, with nothing but a damage-suit basis, that creep into the courts. You gentlemen should watch out for that sort of thing. Remember, you are on duty to serve your county and state. Use your better judgment and let no sentiment rule you."

The conviction is growing on me that not much is known about proper administration of the law. No man is above the law, but it must be administered. That is a prerogative that belongs to the higher power. The whole truth of the matter is there are agencies doing more to deter persons from committing crimes than the county detective.

Activities of the Kiwanis club in aiding the Home for the Friendless was mentioned as beneficial to the campaign against crime. Reference was made to a campaign by a magazine of national circulation to stress the fact that it is impossible to win a crime case when detection is inevitable. Judge Howard also referred to establishment of a free clinic by a group of wealthy Atlanta business men, which he said, had a great deal to do with reducing the amount of crime.

Solicitor General John A. Boykin, who prosecuted Stigall, has written the commission a protest against clemency and stated that the man has served less than two years of his sentence and "was lucky not to have received the death penalty." The Kameilas have also sent resolutions requesting against clemency for the former trial judge.

Stigall will be represented by his attorney, Branch and Howard, and his lawyer, LeCount, who have presented a petition signed by about 250 citizens, including members of the police department, and it is stated, eight of the trial jurors who acted at Stigall's trial. Stigall shot and killed Hanes, private detective, and the second is that of R. N. Berrien, Jr., former Atlanta broker, serving from 3 to 5 years for larceny after trust, involving alleged misappropriation of funds from state school warrants entrusted to him for discounting.

The commission devotes the first week in each month to hearings on clemency cases.

**Better Buick  
time payment costs  
are Lowest in the  
Motor Car Industry**

Buick time payment prices are from \$30 to \$75 under prices of competitive cars. The new GMAC Time Payment Plan adds still another economy to Buick ownership.

Actual comparison of **DELIVERED** cost will show you the Better Buick's decisive price advantage over other cars whose dealers have not the opportunity to work under the GMAC Plan. Pick out any other car of approximately the same list price as a Buick model and get the **DELIVERED** cost of each, with everything you will be required to pay added to the total (*including interest and insurance*). See how much lower Buick is!

The Better Buick, at its new low prices, is the best buy in the motor car market today, on the basis of efficiency, quality and value, whether you pay cash or buy it out of your income on the new GMAC Plan. Either way you get a better car for less money.

SIN SEPARATES—Your iniqui-  
ties have separated you between you  
and God, and your sins have hid his  
face from you, that he will not hear  
Isaiah 59:2.

PRAYER—Dear Lord, we thank  
Thee that when our sin separates us  
from our Heavenly Father, Thou  
didst come and make atonement for  
us that we might again be at one  
with Thee.

WHAT ESTIMATES?  
The Constitution is in receipt of  
the following communication from a  
prominent Atlanta business man:

Editor Constitution: I have been  
reading with a great deal of interest  
the comments on the government col-  
ton crop reports. Would it not be  
worth while to publish the government  
reports for the past five years versus  
the actual number of bales produced?

JOHN H. HARLAND.

This is impossible as shown by  
the wide range in the estimates  
made during each growing and har-  
vesting season. They have varied al-  
together around a million bales,  
from low to high, during 1925.

What estimates?  
What reports?

The bullish, the bearish or the  
medium?

The very fact that to do as Mr.  
Harland suggests is impracticable is  
the soundest argument why the gov-  
ernment should stop these guessing  
contests.

Within two weeks in the very  
heart of the present ginning season  
when any speculative bearish move-  
ment not based on facts mean  
millions of dollars in direct losses  
to the producers, these estimates  
varied approximately 500,000 bales.

The losses in spot prices have  
gone above a hundred million dol-  
lars.

It is unthinkable that the govern-  
ment will permit such a situation  
to exist when it is purely guess-  
work at best, and cannot possibly  
be made anything else.

That it is done to carry an army  
of field employees is charged.

That makes the situation worse,  
for not only must those of the cot-  
ton trade as tax payers help carry  
the expenses of such an army of  
political employees, but the losses  
accruing to them through the gam-  
blers who "bet against" these guess-  
work estimates are staggering. It  
is just as morally wrong to precipi-  
tate these unnecessary losses against  
the consumers of cotton as against  
the producers. The records bear out  
the statement, however, that they  
fall usually on the producers—as  
they have in the recent weeks.

The only thing to do is to abolish  
them—and congress in December  
should lose no time about it. Not  
only abolish the crop estimates but  
the acreage estimates made in ad-  
vance of planting. They are use-  
less, and are only guess-work fig-  
ures.

Several million acres are included  
in the so-called survey of prospec-  
tive acreage made in the early  
spring of each year that are never  
put in cotton. That fact is so well  
established it can be almost ac-  
curately subtracted, and yet it is  
not. The advanced acreage report  
always, therefore, precipitates a  
bear market that is not justified by  
facts.

The ginning statistics should be  
given. They are direct census statistics  
and are accurate because guess-  
work is eliminated. Weather re-  
ports, and even condition reports,  
differentiated by states and sections,  
are desirable. But guesses as to  
total yields, bearing the government  
stamp that invites pit gambling, are  
destructive to the best interests of  
the country, and should go.

GOOD FOR MUSCOGEE!

In a driving rain storm that lasted  
practically all day Muscogee county  
Saturday voted to issue \$1,650,000  
in road bonds with less than 50  
negative votes out of nearly 5,000  
cast—a phenomenal record that de-  
serves commendation.

With the funds for these bonds,  
supplemented with state and fed-  
eral aids on state highways, the

county proposes to build 70 miles  
of hard-surfaced highways. This will  
make Muscogee county second to  
none, in permanent paving accord-  
ing to the gross mileage, in the  
state.

It illustrates the spirit for per-  
manent road building that is sweep-  
ing Georgia. It is unprecedented.  
It accentuates the determination of  
Georgia people to take Georgia  
out of the mud, and out of the  
morass of the roadside, while the  
procession of progress moves for-  
ward.

All over the state the sentiment  
is the same.

The call of the hour that cannot  
be hushed—is to join-up the paved  
links in the interstate links so that  
the weak shall not condemn the  
good.

TODAY'S ELECTIONS.

The off-year elections today—the  
first Tuesday in November—are  
confined to only thirteen of the  
forty-eight states with general elec-  
tions in five, but many municipal  
contests are creating nation-wide  
interest. First among them is the  
mayorality of New York. The con-  
test is between James J. Walker,  
democrat, and Frank D. Waterman,  
republican. The consensus of opin-  
ion is that Walker will win by a  
substantial majority. Forces that  
opposed Senator Walker in the  
nominating primary, from among the  
democratic ranks, are now in line  
behind. The threatened can-  
didacy of Mayor Hylan not an inde-  
pendent did not materialize. Hylan  
is now supporting Walker as the  
party nominee.

New York state will elect the  
entire lower house of the assembly  
today and will vote on a \$400,000,-  
000 bond issue, of which 75 per  
cent is to be spent for the elimina-  
tion of grade crossings alone, the  
most gigantic safety undertaking  
ever contemplated by any state.

New Jersey and Virginia are the  
only states in which governors will  
only be chosen.

On the whole, outside of New  
York, but little interest has been  
taken in this year's elections. The  
people have been more disposed to  
give thought to economic affairs—  
and wisely.

THE NAHUNTA TRAGEDY.

The heart of Georgia goes out  
to the stricken parents of the dead  
and dying and injured school chil-  
dren who were mowed down by a  
train at a grade crossing near Way-  
cross Monday.

Such accidents are occurring  
every day—not of school children  
perhaps but of human beings who  
lives, full of promise, are sacred to  
those who love them.

They will continue to occur so  
long as the grade crossing remains,  
in Georgia a recently enacted law  
demands that every dangerous  
crossing shall be marked and that  
every vehicle shall come to a full  
stop before such crossings. It de-  
mands that every crossing, if not  
dangerous—even though a full  
sweep of the eyes in either direction  
may show it clear—must be ap-  
proached at a low rate of speed. It  
has not yet gone into effect but will  
in 60 days. It is hoped it may  
prove of great service, but the toll  
of death at grade crossings will  
never be substantially diminished  
until the crossings are eliminated  
through under or overpasses. New  
York has taken an advanced step  
in submitting a bond issue suffi-  
ciently large to remove every  
grade crossing in the state.

The community of Nahunta in  
Branly county is shrouded in sor-  
row. We join in that sorrow. Even  
the lessons that such an accident  
may impress cannot soften the suf-  
fering of the bereaved.

This, and all such tragedies, must  
again impress the dangers of the  
grade crossing, and the hazards  
that attend the control of heavy, high-  
powered motor vehicles by school  
boys who are not of age, and who  
have not the maturity of judgment,  
nor the experience in mechanics to  
drive such vehicles with their  
human cargoes.

Time and again has The Constitu-  
tion urged and begged for caution  
in this respect.

And here's the old familiar Bal-  
kan war cloud, storming around  
again.

Also, cold weather brings mouth-  
smacking reflections of Georgia  
sorrows and backbone.

Time for the optimistic brethren  
to pray for "fair and warmer."

Colonel Mitchell beards the lion  
in his den, and the mane-pulling  
is on.

However, at the airship trial the  
fliers all right.

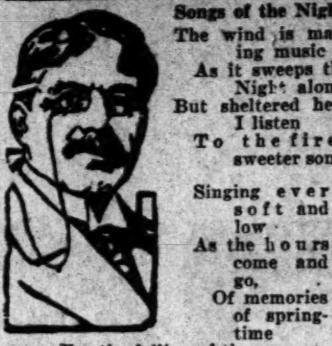

The autoist who races to the  
crossing with the fast train shows  
fine optimism, but—in the words  
of the home-town philosopher—  
"cussed little judgment."

You can't get the reckless speed-  
er away from the idea that it's al-  
ways the "other fellow" who is re-  
sponsible for the auto accidents.

The bank bandits are still fighting  
winning battles with the bank de-  
fenders. Evidently the cashiers  
need more war-training.

Songs of the Night.

music  
As it sweeps the  
Night along.  
But sing here  
I listen  
To the fire's  
sweeter song.

Singing ever  
soft and low  
As the hours  
come and go.  
Of memories  
of springtime  
Ere the falling of the snow.

The music of the night wind

## Indictments Are Returned Against Thirty-Nine Persons In Jack Daniel Whisky Plot

Prominent Officials and Politicians of St. Louis, Indianapolis and Cincinnati Included in List.

St. Louis Mo., November 2.—(AP)—United States Attorney Curry today made public the names of 39 persons, including prominent officials and politicians in St. Louis, Indianapolis and Cincinnati, who were indicted at Indianapolis Saturday by a federal grand jury on a charge of conspiracy in the \$1,800,000 Jack Daniel whisky withdrawal plot.

Others indicted include:

Tom Motlow, wealthy Tennessee distiller, who shot and killed a Pullman conductor in 1922; his son, who was accused of a charge of murder; Tom Heffernan, an associate of Motlow in ownership of the whisky, and one of the alleged participants in its sale to a syndicate backed by Remus Henry, John Whalen, democratic city committee man and former alderman here; "Tony" Foley, notorious St. Louis county gambler and former convict; John Neely, St. Louis county constable; Morris Multin, former St. Louis whisky dealer, and his brothers Isadore Multin and Sidney Multin; John Gehring, George L. Lanning, Edward J. Hayes, William Lucking, Robert E. Walker, August Walker, Clifford Sampson, Carlisle Sampson, Frank Hoffman, Bernard Brink, George Hollis, Henry Stratton, Ben Doncaster, Richard Fitzgibbon and a man named Houlihan, whose name is unknown to the grand jurors.

Twenty-two of those indicted were from St. Louis or vicinity.

District Attorney Curry said evidence here, but in Cincinnati and Nashville, Tenn., and the defendants would be brought in to make bonds ranging from \$2,500 to \$10,000 for appearance in federal court at Indianapolis Saturday at 10 a.m.

The indictment specifically charged

conspiracy to violate the Volstead act

and to commit overt acts, including transportation of some of the whisky to Indianapolis, culminating in the arrest there of Marcus. His arrest brought the venue in the case in Indianapolis.

In opposing action at this time, Chairman Green said he thought the law should stand until it could be thoroughly revised if necessary.

prosecution announcing it had placed its case before the military judges of the intrepid airman. It had perfectly proved the issuance and publication of statements made by Mitchell in which he denounced the war and navy department administration of air service as "criminal" and "almost treasonable" and there could be no doubt.

The end of the prosecution came just as it appeared that the legal quagmire, which to date had hindered rapid progress of the preliminaries of the court-martial, was about to take a new hold and further retard it.

The defense, however, had arranged the cooperation of all who intended to be present in telephoning the church Tuesday morning so that the prosecution had failed to make a case. He had a part in this work," Mr. Wilson said.

The audience, which comfortably filled the large auditorium, demanded a "return engagement" of the Rader. Mitchell's quartet, which drew a storm of applause on its first appearance Sunday night, "L. Rader" agreed to sing again.

Representative Frank B. Reid, chief of Mitchell's counsel, moved that the entire case against Mitchell be dropped on the grounds that the prosecution had failed to make a case. He specifically asked that the charge incorporated in specifications four, seven and eight be dropped.

Rader will argue his motion at length Tuesday morning, but his efforts are already foiled. President Howze, of the court-martial, will hear the argument of the court, which will take when he demanded that the defense endeavor to facilitate the attendance, personally or through affidavit, of some of a long list of imposing witnesses, including cabinet officers and Everett Sanders, secretary to President Coolidge.

Lies Too Long.

It was announced Monday night that Wednesday had been set aside as "Young Folks' night" when the evangelist will preach another sermon aimed expressly for the benefit of the young people of the city.

The sermon Monday night was on the subject: "Naaman the Leper," one which created great interest during the evangelist's former visit to Atlanta.

Naaman was a powerful warrior king of the Old Testament who became ill with leprosy and was cured, after a spiritual battle, by dipping himself seven times in the waters of the River Jordan upon the instruction of the Prophet Elisha.

The evangelist, who has been cow punched, foot player, past fighter, promoter, business and preacher during his checkered career, turned actor for the hour and held the audience spellbound as it actually saw, through his masterful portrayal, the surging thousands of embattled soldiers in the battle of Megiddo.

Just how many of the witnesses asked will be called is to be determined at a conference which may be held before the prosecution and defense attorneys.

Some of the testimony the defense expects to adduce will be admitted by the prosecution, it was intimated, and in many other instances affidavits will be submitted.

**Defense Exhaustive.**

Mitchell's defense is most exhaustive in scope. Not only will it attempt to substantiate his charge that any will appear in person, MacMullen pointed out to the court that it is "unusual" and will request cabinet officers be called in any civil or military trial. Mitchell's counsel immediately suggested that they would be willing to waive personal attendance if the documentary evidence in the possession of these officers is presented.

**RITES AT BARNESVILLE FOR MRS. A. H. McCARTY**

Vidalia, Ga., November 2.—(AP)—Vidalia is enjoying an era of prosperity, which is reflected in the statements of banking institutions here this year, as compared with financial figures.

Clearings of banking houses in Vidalia during the week of October 21, 1925, were more than a half million dollars greater than the amount for the corresponding week of October, 1924. This year's figure, however, does not exceed the official report of the Vidalia Clearing House association, which was \$1,727,429, as compared with the 1924 aggregate of \$1,160,386, gain over last year's weekly amount of \$618,043.

Substantial increases are also noted in both bank deposits and bank resources, the former being about 12 per cent and the latter almost 20 per cent greater. The bank deposits have increased from \$5,824,638.28 to \$6,770,578.27 for this year, approximately three-fourths of a million dollars more.

A notable engineering feat recently completed was the laying of a gas main 7,000 feet long across the bottom of the Hudson river at Newburgh, N. Y.

**What is \$1000 worth to you?**

If you live in Florida or Texas, it would be worth \$70 or \$80 a year—in interest. In New York, it is worth only \$55 or \$65. Is it sensible to invest your money where it is worth the least?

From Secretary of War Davis he wants the authority for the inception of the court-martial and the charges which led to it.

Mitchell intends to lay special stress on whether there has been any resultant disorder and a lessening of discipline in any of the army posts of the country because of his demurral.

He got his first answer to this Monday morning when Major General Hinds, commander of the eighth corps area, and a witness for the prosecution, admitted there was no disorder or lack of discipline in the wake of Mitchell's alleged insubordination action.

Texas newspapermen testified that Mitchell gave them statements which denounced the administration of the air service. The prosecution, through General Parker, of the congressional library, produced newspapers in which the statements were published.

But it did not close its case until every one of its moves was sharply contested. Heated exchanges resulted between prosecution and defense attorneys and brought admittance from the court that counsel was inducing in "too many controversial remarks."

The court, when it recessed Monday afternoon, was concerned with the length of time the trial will take and urged some steps be taken to hasten it.

## NOTICE IS SERVED OF TARIFF BATTLE

... FELLOW NIMROD DROWNED IN MISSISSIPPI ...  
Of Comrade's Death in River

Memphis, Tenn., November 2.—(AP) Notice of a fight to revise the tariff at the coming session of congress was served today by Representative Cordell Hull, of Tennessee, former democratic national chairman, who is a member of the ways and means committee, which has charge of such legislation.

Mr. Hull announced that he and Representative Oldfield, of Arkansas, were prepared to offer a resolution proposing revision of the entire act. Mr. Oldfield, who also is a member of the ways and means committee, is chairman of the House congressional campaign committee.

The announcement drew a quick re-

action from Chairman Green of the committee, who asserted he would oppose any attempt to open the tariff question at this time. This is also the attitude of President Coolidge and most administration republicans.

The tariff bill has not been up-  
dated since it became law in 1922.

Several suggestions for revision were put forward early this summer, but it was made known definitely then that the president did not favor revision.

The act gives the president power to increase or decrease by 50 per cent upward or downward upon the recommendation of the tariff commission. Under this flexible provision, he has made some changes, notably in wheat, where he raised the duty by

20 cents, and cut it by 10 cents.

In opposing action at this time,

Chairman Green said he thought the law should stand until it could be thoroughly revised if necessary.

the only thing to do was to jump out and swim for shore. There were two life belts in the boat. We got one on Sullivan, but McLeMire hopped out without the other. I seized it and went to McLeMire and we put it on him.

"I called to McLeMire to follow Joe and myself, that the Tennessee shore was nearer. He insisted he was going to the Arkansas shore.

"We struck out swimming. I must have been in the water an hour when I reached the Tennessee shore. I called to Sullivan and heard him say he was 100 yards behind me. I swam as fast as I could.

"We soon saw we were in a serious predicament. McLeMire tried to maneuver the boat toward the bank, but the engine went dead.

We agreed that

"If you don't help me quickly,

"I made my way to him, got him on my shoulder and reached land with him.

"Joe was exhausted and towards daybreak became unconscious. I made a bed of the damp leaves and we huddled together until another hunting party came to our assistance."

Sullivan was recovering in a local hospital today.

## TROOPS ON GUARD AT NEGROES' TRIAL

TOOMBS COUNTY SHIPS 75 CARS OF POTATOES

## TWO MEN ARRESTED FOR GOTHAM KILLING

Lyon, Ga., November 2.—(Special)—Total figures of the big stem Jersey sweet potato shipments for the summer of 1925 show that 75 cars containing 1,216,000 bushels, each holding 11 pecks, have been shipped to the eastern markets from Toombs county. Two other cars of field run were shipped to a nearby canning plant.

The average price received this year was the same as last year.

The yield per acre was 13 bushels per acre, selling as high as \$13 per bushel for one car shipped No. 10 for No. 10 this year longer than ever before, due to the short crop in North Carolina.

The yield of the county has averaged 10 bushels per acre for the last two years, against an average of 12 bushels per acre last year.

Where the farmers used about three acres to the plow in connection with their other crops, the yield has been higher and more profitable, while the yield per acre has been 13 bushels per acre, in many instances, failed to make a profitable yield. Some averaged as high as 35 barrels to the acre, which was very profitable.

It was announced today by Solicitor Swain that no cases, where defendants were out on bond, would be tried until the completion of the cases against the two negroes. This means that the trial of 43 members of a mob which recently took over the county jail in an attempt to take Mansel therefrom, will not be brought before the court until next week.

The court room today was crowded to its capacity, but there was no indication of trouble. Prior to the opening court, Judge Stack had the room cleared of all persons returning. One pocket knife and a pint of moonshine whisky were taken by officers as a result of this order. The crowd was orderly, but it did not leave the court room for one minute while court was in session.

However, County Commissioner, a strong, well built man, who was a member of the court, was seen to leave the court room. He was followed about the court room during the entire day and several were stationed on the outside of the building and in the corridors, with others at their arms, ready to respond to an emergency call.

## Insulin Treatment Hailed As Paramount Medical Discovery of Age by Expert

Dread Disease of Diabetes Need Not Be Feared as Sure Death Any More.

By ETHEL M. HALSEY. Philadelphia, November 2.—Insulin, the miracle-working discovery announced by Banting of Toronto two years ago, now easily available to rich and poor alike, has saved the lives of thousands of "hopeless" vic-

tims of the disease which "turns the blood to sugar."

"By the use of insulin no sufferer from diabetes needs to have his life shortened by a single day, or his usefulness in any way impaire," explained Dr. F. N. Starr, a Toronto surgeon, who read a paper on the subject before the American College of Surgeons' convention here.

A new method is the sudden injection of large doses of insulin into the blood in emergency cases when the patient is at the point of death.

"I saw a man brought into a hospital in the coma of death so treated and 24 hours later he awoke to see him sitting up in bed reading the paper," the surgeon recalled.

Diabetes strikes all ages, and formerly infants falling victim to it died within a period of months. In many cases, the tendency to the disease can be taken care of if it is caused by a deficiency in the secretion of the pancreas gland into the blood, for which insulin, made of the extract of animal pancreas, serves as a substitute.

### Story of Discovery.

Dr. Starr recalled the story of Dr. Banting's discovery being attributed to the fact that he believed in the dog whose pancreas he had removed to experiment with extracts taken from it, which he then kept alive for nine months by feeding him with similar extracts and so learned their value.

He stressed the enormous importance of insulin in making the disease, formerly considered a poor operative risk, safe for operations. Now he may be safely prepared for an operation by adequate nourishment, and, through doses of insulin, keep the normal sugar level in the blood. He may be further dosed during and after the operation, recent experience teaching that it is almost impossible to give overdoes of insulin, and his chance of recovery, whatever he is being treated for, are as good as if he were not diabetic.

In cases of over-dose, where the sugar level drops too low, sweet chocolates are the quickest restoratives. Dr. Banting always carries a pack of them in his pocket in case of sudden need," said Dr. Starr.

## Easy To Gain Weight With Yeast and Iron

New Combination of Yeast With Vegetable Iron Builds Up Weight in Three Weeks

Thin, run-down and underweight men, women and children can improve their health, increase their energy and put on from five to twenty pounds of good solid flesh in three weeks.

A new combination of yeast vitamins with vegetable iron, renews the action of sluggish blood cells, drives out dangerous body poisons, increases energy and endurance, and supplies the system with the vitamins that build up weight.

For years yeast has been known as a rich vitamin food, but not until we perfected "ironized yeast"—which comes in concentrated tablet form, was it possible to take yeast and iron in the right proportions to build up weight.

Vegetable "Iron" when combined with yeast is quite easy to digest, therefore better for the system. And "yeast" when ironized becomes just twice as beneficial as ordinary fresh or cake yeast.

Ironized Yeast tablets are composed of concentrated food elements, therefore they are pleasant to take and free from drug-like effects. It makes no difference how old you are—or how young you are—how long you have been under-weight—or how much under-weight you are, "ironized yeast" tablets are positively guaranteed to pick you right up, and add from five to twenty pounds of good firm flesh in three weeks' time. If they fall get your money back.

Sold by druggists, at \$1.00 for a large 60-tablet package, or sent direct from laboratory on receipt of price. Ironized Yeast Co., Dept. 201, Atlanta, Ga.

## More Damaging Evidence Heaped Upon Stephenson

Noblesville, Ind., November 2.—Racing at top speed through a mass of damaging evidence, the state has virtually completed its first degree murder case against D. C. Stephenson, former dragon of the Indiana Ku Klux Klan, and two of his associates, who are accused of attacking Miss Madge Oberholtzer, and then denying her the medical aid that might have saved her life.

Monday's session of court was devoted to getting before the jury additional evidence, intended to show that the 19-year-old social worker was inhumanly abused by Stephenson and Earl Klenck and Earl Gentry, his henchmen.

During the afternoon, Mrs. Josephine Lowe, who lives near the Stephenson mansion in Indianapolis, told of frantic screams emanating from the Stephenson garage, where Miss Oberholtzer said she was held captive by her abductors the night of March 16.

**Screams of Woman in Distress.**  
Under cross examination, the neighbor woman declared the screams were those of a woman in distress and that she was sure they came from the Stephenson garage.

This story fits in perfectly with the statement already given by Miss Oberholtzer about her life before her death. The statement, which has become a part of the record of the present trial, says she was held at the garage after being returned from Hammond, Ind., where she had been taken by Stephenson and his henchmen.

Previously in Mrs. Lowe's story, Miss Beatrice Spratley, the nurse who attended Miss Oberholtzer at her home, gave a vivid description of the girl's injuries resulting from the alleged as-

### Given Dose of Morphine.

On cross-examination, however, she admitted that physicians had given the woman a dose of morphine shortly before taking her from the death bed statement, in which she accused the former Klan leaders. This admission was seized upon as highly significant by defense attorneys, who hold that the dying woman made under unusual circumstances—the Miss Oberholtzer was forced to give it.

Miss Spratley testified that five specialists were called in to save Miss Oberholtzer from the deadly effects of poison she had swallowed while held by the defendants in a hotel at Hammond.

Before returning to the testimony of witnesses who were with Miss Oberholtzer in the last hours of her life, the state again called railroad employees in an attempt to establish that Stephenson and his associates actually abducted her.

## J. S. Donaldson Dies Suddenly At Home Monday

J. S. Donaldson, 64, well-known Buckhead citizen and a large real estate holder in that section, died suddenly Monday afternoon at the residence, 2725 Peachtree road. His death was caused by heart trouble, physicians stated.

He was born in Gwinnett county

and spent most of his youth in that county, moving to Atlanta when a young man.

In April, 1919, he married Miss Ottella Mae Hicks of this city.

Mr. Donaldson gained a wide reputation as a contractor, having taken part in building a number of Atlanta's leading subdivisions including Ansley Park, Peachtree Heights and Andrews drive.

In addition to his widow he is survived by four daughters, Mrs. E. R. Donaldson of Atlanta; Mrs. E. J. Trawick of Macon, and Misses Montine and Vivian Donaldson, of Atlanta; two brothers, Emory O. Donaldson of Atlanta, and Ezra O. Donaldson of China Hill, and five sisters, Mrs. G. T. Donaldson, Mrs. C. R. Reed, Mrs. R. E. Minor, Mrs. Gibb Davis and Mrs. Will Lestwith.

Funeral arrangements will be announced later.

## Professor Sees Bad Tendencies In Universities

New Haven, Conn., November 2.—(AP)—The twenty-seventh annual conference of the American Association of Universities, at its first session at Yale University today was addressed by Dean Wilbur L. Cross, of Yale Graduate school, and Dean Carl E. Shores, of the State University of Iowa. More than 60 delegates from leading institutions of the country, including 18 university presidents are attending the conference, which is chiefly concerned with the common problems of graduate schools.

Dean Cross, speaking on "The Functions of the Graduate School," said in part:

"The tendency has been to take over into the graduate school the majority of the undergraduate school to admit students from a narrowed list of secondary schools, and thus treat them en masse. The time has come for a halt and a turn in another direction. We should revert to the old flexibility, no longer dealing with students en masse, but individually."

This is done, he said, "to too much the institution whence a student comes. A man who comes from a college rated as first class may be no better qualified to undertake advanced work than a man from a college of a lower rating."

Dean Seeger in discussing the "Practical Examination as a Means of Discovering and Motivating the Future Scholar Early," named "fourteen points" he considered "among the most promising and effective projects which universities should consider."

## Navy Band Given Ovation By Atlanta Music Lovers

Responding to encore after encore from a large audience that enthused and demanded an encore, the 12-piece band of the United States Navy band Monday night gained a permanent niche in the hearts of music-loving Atlantans with an admirable rendition of a program which included a wide variety of selections.

Band music was not the only music given Atlantans—there were symphony selections, folk songs, jazz pieces and favorite airs that every one loves, all in a program arranged in perfect balance.

March compositions by Lieutenant Charles Bentele, director, marked an encore of the program. Throwing himself into the spirit of the music, Lieutenant Bentele directed the maestro, Sousa, in directing, and by perfect coordination between director and players, the navy band proved that it is well variety and selection.

Small recovered a fumble in the third period and ran 35 yards for the second touchdown of the afternoon, Logan kicking goal for the extra point.

Later in the same quarter, after Pollard, Logan and Crawford had a series of line backs, worked the ball deep into the ministers' territory, Stovall broke loose around right end and ran 20 yards for his second touchdown of the night.

Small recovered a fumble in the fourth period and ran 20 yards for the second touchdown of the afternoon, Logan kicking goal for the extra point.

A pass, Logan to Crawford, scored the fourth touchdown from the 45-yard line, and a few minutes later, Crawford had control with a reception and ran 20 yards for his second touchdown. It was during this quarter that to the surprise of all, Rev. "Smute" Branscomb, gained back the two yards he lost last year.

Those who missed the navy band concert are out of luck, for according to those in charge, it will be years before the band will play in this section again, as it takes presidential consent for the navy band to perform. From Atlanta the band goes to Rome. From Rome to the Orient.

Barbarous Panama Indians EXPLORER SURPRISED AT "WISE CRACKS" OF NATIVES Speak Shakespearean English

New York, November 2.—Rare old English, as spoken by rare old Ben Jonson, Good Queen Bess and William Shakespeare, today constitutes the outlandish language of a tribe of Indians studied in Panama by A. Hyatt Verrill, explorer for the museum of the American Indian, Heye foundation.

Their routine conversations are interspersed with such phrases as "od's bobs," "Forsyth, I ween, I wot," and that delightful example of Elizabethan slang, "Byr' Mary."

These Indians are semi-barbarous and call themselves "Boorabbi," said Verrill, who sailed Wednesday for Panama, where he will continue his explorations.

Verrill related that a Boorabbi approached him last visit and delivered himself as follows:

"Forsoth, right glad are we to wel-

come thee here. What art thou

Recovering from this lingual attack, Verrill, hardly believing he heard aright, was again floored by a native in a breech clout who spoke thus wise: "Nay, thou canst not march farther this day, ere 'twill be dark, I wot."

It seems that in the hey-day of the Spanish galleon, Bartholomew Sharp, English gentleman-pirate, bore down on the Spanish fleet off Boca Del Toro harbor in Panama, routed it, and took possession.

With Sharp were other famous pirates. They settled in the Boca Del Toro and mixed with the adjacent Boorabbi Indians. Even now some of the Indian families bear the stout old English names of Hawkins and Kingrose.

Even France, which otherwise has a slightly higher suicide rate than Germany, ranks far beneath her with respect to suicides among minors. The figure is rare, but the fact that the German rate is increasing provides the alarming factor in the problem.

Most of the juvenile suicides are boys. Of 1,000,000 children less than 16 years of age, 10 committed suicide last year.

The French rate is about a third as great.

Bad marks in school caused most of the suicides among Germany's youth.

It is not merely hurt pride that causes self destruction in such cases, but the fear of social ostracism.

Even France, which otherwise has a slightly higher suicide rate than Germany, ranks far beneath her with respect to suicides among minors. The figure is rare, but the fact that the German rate is increasing provides the alarming factor in the problem.

Political democracy after the revolution of 1918 failed to make the German family a more democratic institution.

# INTERFERENCE IS STRESSED AT JACKET PRACTICE

## Tech Plays Being Drilled Against Commodores; Tech Rooters Accompany Team

Coach Alexander sent his entire squad of Yellow Jackets through an extensive drill yesterday, in preparation for the Vanderbilt game in Nashville Saturday.

The first-string squad, which saw little or no service in the Notre Dame contest, was ready for service and went to work in a whole-hearted manner.

Coach Hansen worked with the backfield men at length, drilling them thoroughly in the matter of running interference and cutting down tacklers.

No actual scrimmage was held, though two teams line up and executed various plays, minus the tackling.

Going down under punts was also emphasized during the afternoon.

The squad is in condition for the fray. Captain Wycoff went through the afternoon's work and will be ready for the game Saturday, although he was still limping yesterday. "Six" Carpenter watched the proceedings from the sidelines. He is still on crutches. He will probably be out the rest of the season.

Tech is planning to send a large delegation to Nashville for the game. A fund is being raised to send the band and Atlanta will take Nashville by storm.

A scrimmage against Vanderbilt for a matinee is planned for this afternoon.

**VANDY IS SET TO "WRECK TECH."**

Nashville, Tenn., November 2.—(Special.)—But one idea winds. Duvelle field where the Vanderbilt football team will make forth—that is wreck Tech. Since the return of the team from the game of the Southwest Georgia Field Trials, the team at Atlanta has been Dr. B. Oliver, president of the association, announced today that November 25 had been selected for holding the trials and that drawing for the three stakes to be run will be held in the parlors of the Windsor hotel at America at 12 o'clock on the night preceding the trials.

There will be three stakes run, viz., puppy, derby and all-age, and all dogs belonging to members of the association will be eligible, regardless of previous winning, under a revised ruling by the executive committee of the association.

The 1,900 acres, including woodland, open and cultivated lands have been secured for holding the trials, and the attendance, it is expected, will eclipse that of any previous year in the history of the organization.

## HUNTING CLUB IS ORGANIZED

Milledgeville, Ga., November 2.—(Special.)—A hunting and fishing club is being organized in Milledgeville by local hunters and anglers.

C. C. Shouse and Dr. Edward A. Tigner are leaders in the movement to organize all the sportsmen in the country. Club rooms will be established in Milledgeville where hunting licenses and supplies will be kept and reading rooms, etc.

The members of the club will cooperate with the county game warden in seeing that the state game law is enforced.

Formation of a gun club was made last year but a suitable location was not obtained and it is believed that the new club will obtain a location and traps for the shooting of clay pigeons as one feature of the club.

## STATESBORO HI WINNER, 28-6

Statesboro, Ga., November 2.—(Special.)—Statesboro High defeated Waynesboro High for the second time this year Friday afternoon on the local athletic field. The score was 28 to 6. Statesboro easily outplayed Waynesboro, making 12 first downs to their opponents' three. It was a good game throughout, only two fumbles being made.

## JACK LELIVELT RETIRES FROM BASEBALL AT LAST

Jack Lelivelt has resigned as manager of the St. Joseph club of the Western League with the statement that he will not consider renewing his contract with that team. Lelivelt was successful as manager at Omaha and Tulsa. He played right field for Minneapolis in 1919. Lelivelt played for several seasons at Kansas City before coming to Minneapolis. He was one of the heaviest hitters in the American Association and held a similar reputation in the Western League for six seasons.

## JAPAN DISCOVERS NEW FEMININE NET STAR

Miss Tokuko Moriwaki has the distinction of being the first Japanese woman tennis player to participate in an American tournament. She recently competed in a meet in southern California.

# Grange Started To Abandon College Career

## They Are Bent on Wrecking Tech

Here are a few of the Vanderbilt stars who will lead the attack against Georgia Tech in Nashville Saturday. Among the players expected to star in the game are Captain Gil Reese, great open-field runner; Fred McKibben, star passer; Jess Keene, powerful tackle; Peck Owen, brainy quarterback, and Bill Spears, halfback, triple threat man, accurate passer and considered Vandy's find of the season.

## Four Horsemen To Play Picked Princeton Team

BY JULIAN GRIFFIN.

The original Four Horsemen of Notre Dame will ride once more! Arrangements have practically been completed for a football game between Notre Dame's championship eleven of last season and a picked team representing Princeton, the game to be played in Miami on New Year's as the feature of a million-dollar pageant. The proceeds of the game will go to charity, according to the announcement.

Once more that gallant quartet of equine marvels that galloped into the celestial sphere of immortality will assemble to parade its warred up and down the battle lines of the gridiron.

The smoothest horse of all times, the pride of Rockne and the last word in grace, rhythm and perfect coordination will advance the pigs in again and bow before the paeans of the populace.

Once more the last all-American quarterback picked by Walker Camp will don the mohawk and bark signals to his championship teammates. Elmer Layden will dive into his wardrobe for his gridiron paraphernalia and show what a fine little fellow can do as a plowing full Jimmie Crowley will put on his battle-scarred helmet and skirt the ends of an opposing team. Don Miller will don his shin guards and cleated shoes to give further evidence of his elusiveness.

**Four Horsemen Scatterd.** "Gee, but it will be great to have that old gang back together once more," said Don Miller in commenting on the arrangements.

The Four Horsemen and other members of the team have gathered to all parts of the country and all are holding positions as football coaches at some college or university.

Elmer Layden is coaching at Columbia college. Harry Stuhldreher has charge of the Villa Nova team in Philadelphia. Jimmie Crowley is back with the University of Georgia and Don Miller is drilling the Rockne system into the freshmen of Georgia Tech.

The linemen of the team are also making good as coaches at various places, but will assemble for the big game.

Tom Welsh of Miami met Miller and Crowley in a hotel where the stars signed an agreement to participate in the game.

Stuhldreher has also signed, according to the report, and the signature of Layden is expected at any minute.

With the famous backfield into the fold, there is not much doubt as to whether the line will assemble to form a forward wall for them once more.

The picked team of former Princeton Tigers will also include names of nationally-known celebrities. Some wonderful football men have been developed at Princeton and the team will give the Four Horsemen a long, healthy run for their money.

## WATCH DISCARDED IN FOOTBALL CONTEST

Providence, R. I., November 2. (AP)—Radical departure from all accepted football custom will be made in the Brown-Boston University game here next Saturday when the stop-watch will be discarded and the game run on a basis of forty plays per period, Dr. Fred W. Marvel, director of athletics, announced today.

## STRIKES KAYOES BUCKIN THIRD

Memphis, Tenn., November 2. (AP) W. L. (Young) Stirling, Georgia light-heavyweight, knocked out "Soldier" Buck, of Louisville, in the third round of a scheduled fifteen-round match for the title which marked the opening of a new boxing arena.

Stirling pounded Buck ferociously from the time the boxers first shook hands until the Kentuckian was knocked out in the third round. Two stings rights to the jaw caused Buck to drop to his knees late in the second round, the bell probably saving him from a knockout. Buck was sent down four consecutive times for the count of eight by Stirling's mighty right-hand blow.

Young, who was unable to

raise a hand in his defense, Buck was knocked off his feet for the fifth time when Stirling landed a short left to his opponent's jaw. Buck's fall was broken by the ropes, but he had taken too many punishment to again gain his feet before the referee had time to count him out. Incidentally the referee raised the victorious glove of the Georgian without the formality of counting 10 over the crushed boxer.

Blood flowed freely from Stirling's nose in the second and third rounds.

Stirling's right hand landed on Buck's head with such force that it bashed his left hand. Buck was badly battered and feeble at the end of the bout, which was witnessed by more than 5,000 persons, the largest crowd ever gathered here to watch boxers square off.

Buck won his last nine matches prior to meeting Stirling.

## A Selling of Fur-Trimmed Coats \$49

It may or it may not be of interest to you to know that the apparel business at High's in October was 45% greater than during the corresponding month last year.

This is growth. It is growth grounded in wide assortments, beautiful and authoritative styles and superior values. Nowhere are these attributes more outstanding than in our coats. As a matter of fact, most of the increase just mentioned was made in coats. The moral is, don't buy a coat until you know what's what, and you cannot know that unless you know the coats at High's.

Here are specimens at \$49. Very wonderful they are, with their rich fabrics and fine furs. Velsheen, bolivia, montebello and suede cloths. The collars and cuffs are of black or grey fox, dyed opossum, wolf and squirrel. Flares, straight lines and wrap models, in sizes 14 to 46.

## Sale of Poppies To Be Held Here On Armistice Day

Once again, as November 11 brings around another Armistice day, Atlantans will be given opportunity to show that they have not forgotten the American blood which was spilled on the soil of France during those days of '17 and '18, when every cable brought news of heroic acts and sacrifices of American soldiers. \*\*\*

On Armistice day, November 11, poppies will be offered for sale to the people of Atlanta, according to B. P. Gambrell, post commander of the Argonne post of the American Legion. The Legion and its Legion auxiliary. \*\*\*

Mr. Asa Warren Candler, wife of the national committeeman of the Legion auxiliary, and Mrs. Arthur H. Betts, of the Georgia Federation of Woman's Clubs, will be in charge of the sales committee. \*\*\*

Proceeds of the sale will go to the legon fund for the aid of disabled

and other ex-service men. Not one cent will be diverted by the Legion. \*\*\*

Armistice day, November 11, was declared, by the city of Atlanta, a day of thanksgiving and a day of remembrance.

The Legion maintains offices at 224 Palmer building, where an ex-service man can obtain aid.

HAYNES IS ASKED TO 'REMOVE CLOUD FROM MINISTERS'

An appeal to the Rev. Red Haynes to "remove the cloud he has cast over ministers" and a request that he furnish the name of the man to whom he referred in a recent statement published in *The Constitution* was received Monday from the Rev. B. L. Betts, of Griffin. \*\*\*

Property owners seek to enjoin the city on the ground that the contract with the construction company is null and void, since the bonds issued are alleged to have been of inferior quality. They further claim that the contract was void because Ed Ingram, member of council at the time the

## CHARLES A. DOZIER DIES AT GAINESVILLE

Gainesville, Ga., November 2.—(Special.)—Charles A. Dozier, 77, father of Miss Katherine Dozier, former president of the Georgia Education association, died here this afternoon at 3:30 o'clock after being in declining health about one year, although he was up and about until a few days ago. He was engaged in the insurance business here.

Mr. Dozier had been a prominent citizen of Gainesville for 35 years, moving here from Columbus. He was born at LaGrange. He was active in the civic welfare of Gainesville, being a former alderman and a member of the board of education.

He is survived by his widow and four children: Misses Katherine and Nofee Dozier and Cadmus A. Dozier, all of Gainesville, and Mrs. D. G. Bickers of Savannah.

Time of funeral services depend upon the arrival of Bishop and will be held in the Presbyterian church, of which Mr. Dozier was a member.

## Joyful mother tells experience with Mother's Friend

"I experienced an easy delivery with my little girl," writes Mrs. Joe D. Bell, Farmington, Ill. "And I give Mother's Friend the praise. It is so soothing and pleasant to use. I also used Mother's Friend before my twins were born, and had wonderful results. I shall always speak a good word for Mother's Friend."

"Mother's Friend" is applied externally. It is sold by all druggists.

## REV. N. B. MATHES DIES AT JONESBORO HOME

Jonesboro, Ga., November 2.—(Special.)—Rev. N. B. Mathes, retired Presbyterian minister, died here at his home tonight at 7:30 o'clock after an illness of several days.

He was actively in the ministry for 30 years, having been pastor of the West End Presbyterian church, in Atlanta, and later pastor of the Hapeville, Jonesboro and Philadelphia churches. He was retired two years ago.

He is survived by his widow and three sons, Clark, Alfred and Edgar Mathes, all of Jonesboro.

The Presbyterian church here Tuesday afternoon at 1 o'clock, Rev. J. W. Anderson, pastor of the Jonesboro Presbyterian church, officiating. Interment will be in West View cemetery, Atlanta.

Dahlonega, Ga., November 2.—(Special.)—James H. Carlisle, 65, who lived near Hoschton, was found dead today at G. H. Moore's mill, three miles from Dahlonega. The verdict of the coroner's jury was that he died of natural causes.

## POTATO SHORTAGE SHOOTS UP PRICES

Chicago, November 2.—(AP)—An unusual shortage of potatoes throughout the country has resulted in extraordinarily high Chicago prices for the product, in the opinion of local commission men. They predict the price will go even higher.

Wisconsin potatoes were quoted at market price of wholesale, today from \$4.50 to \$4.80 a hundred pounds, while Idaho russets were \$1. higher. This means a wholesale price of about 60 cents a peck and a retail price of \$1 to \$1.10 a peck.

"Mother's Friend" is applied externally. It is sold by all druggists.

## Ship Men Urge Direct Subsidy For U.S. Vessels

New Orleans, November 2.—(Special)—A direct subsidy for vessels flying the American merchant marine flag was believed to be the most practical solution of the government's shipping problem. In a resolution adopted unanimously here today a conference of shipping interests, held under the auspices of the United States chamber of commerce.

The merchant marine, the conference decided, "must be maintained, and the American government should retire from active operation of shipping craft as soon as possible."

Colonel A. M. Barber, who attended as the representative of the national chamber, said that a favorable attitude toward a federal subsidy for the merchant marine has been recorded by a number of agricultural organizations, particularly a majority of those who have bitterly opposed such a subsidy in the past.

## ACCUSE DEMOCRATS OF PLOT TO STEAL NEW JERSEY VOTES

Newark, N. J., November 2.—(AP)—Republican charges of a democratic plot to steal the election mark, the close of one of the hottest gubernatorial campaigns in the history of New Jersey with prohibition as the leading issue.

Henry Moore, a commissioner of Jersey City, the democratic candidate, has called State Senator Arthur Whitney, of Mendham, his republican opponent, a tool of the Anti-Saloon League.

The democrats have come out for immediate action of the Volstead act and repudiation of the state enforcement act. An investigation began Saturday has revealed elaborate democratic plans to steal crucial Essex county, Senator Whitney declares. Essex county, usually republican, is considered likely to offset a large democratic majority conceded in Hudson county. Whitney charges that thousands of floaters from New York have been illegally registered.

## POKER GAME RESULTS IN DEATH AT ATHENS

Athens, Ga., November 2.—(Special)—Lon Anderson, a local painter, was shot and killed in a local hotel tonight and Henry Wood, formerly a bailiff of Clarke county is in the county jail charged with the killing.

According to officers the shooting was the result of an unsuccessful attempt of Wood's to enter a poker room in which Anderson and three others were seated. He left the room but later returned and as Anderson opened the door Wood opened fire, killing him instantly according to police reports.

A shotgun was the weapon used.

## 5 KILLED, 27 WOUNDED IN MEXICAN ELECTION

Mexico City, November 2.—(AP)—Five killed and 27 wounded in the course of the gubernatorial elections in Veracruz today are reported in special dispatches from Merida, capital of the state.

To End Severe Cough  
Quickly, Try This

For real results, this old home-made remedy beats them all. Easily prepared.

You'll never know how quickly a bad cough can be consoled, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It is easily prepared, and there is nothing better for coughs. Into a pint bottle, put 2½ ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can add a dash of rum or brandy instead of sugar syrup. Either way, the full pint saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It is strong, yet, and tastes pleasant—children like it. You can feel this take hold instantly, sooths and healing the membranes in all the air passages. It promptly banishes the coughs, and soon you will notice the phlegm thin out and disappear. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, the most reliable remedy for throat and chest ailments.

To avoid disappointment, get your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded.

HIGH LIGHTS OF HISTORY

The Origin of the Pilgrims.

by J. CARROLL MANSFIELD

THE HISTORY OF THE FIRST PERMANENT SETTLEMENT IN NEW ENGLAND HAD ITS BEGINNING IN SCROOSBY, A LITTLE ENGLISH TOWN, WHERE A LITTLE BAND OF RELIGIOUS PEOPLE, CALLED THE SEPARATISTS, DEFIED THE COMMAND OF KING JAMES TO ATTEND THE CHURCH OF ENGLAND AND CONTINUED TO WORSHIP GOD IN THEIR OWN WAY.

Marduk Agrees To Fight Tiamat

The priests of the city of Babylon made themselves busy to prove that Marduk was the greatest of the gods. To do this, they invented the following story, which has come down to us on party, broken tablets of clay: "When Ea, the first god, made other gods, and placed them in the midst of heaven. One day, Apsu said to his messenger:

"Oh, Mummu, joy of my liver, let us go to Tiamat."

"Tiamat, when female monster Ea, the father of the waters, captured me and Mummu while they were on their way to the monster."

"Hearing of the capture, Tiamat was filled with rage. She decided to destroy Ea and the other gods. To help her do so, she made great serpents, raging dogs, and terrible dragons."

"The gods learned of the plan, and were filled with fear. Even Ea did not face the monster. Then an aged god went to Marduk and said:

"Thou art my son. Go to the battle, and it shall be peace."

"Oh, my father, replied Marduk, 'may thy words never be taken back, I shall follow the desire of thy heart. Oh lord of gods, if I conquer Tiamat, call me the greatest god. Let me take thy place as the ruler of fate.'

"All the gods came together to eat bread and mix wine. They made a royal chamber for Marduk and said to him:

"Thy voice, oh lord, shall be supreme among the gods. What you command, shall come. Speak and it shall be done."

Marduk picked up a spear and fastened it with a scarf. He took a bow for a weapon. He filled his hand with flame, and placed the lightning

on his face. Hoping to catch Tiamat, he made a net. Then he mounted his storm-chariot, drawn by four strong horses, and drove away to meet the enemy."

(With all of these weapons we might think that Marduk had a good chance against any enemy. In our story in tomorrow's Corner, we shall learn the result of the battle.)

BEAUTY CHATS  
BY EDNA K. FORBES

ANSWERED LETTERS

X. Y. Z.—I surmise the red and blue spot on your leg comes from a cluster of varicose veins. If this is so, the condition is not apt to get any worse, since it will not matter much except as an ugly blemish on your leg. While it is inconvenient to wear stockings when you swim, this is the only thing you can do if you do not want the spot to be seen.

Worried.—From your letter, I imagine you are fine elder sister who is doing everything possible to help your mother in her place in the family. You should make a confidant of her in all your little uncertainties about yourself. She is just a girl also and it is easily understood; after you talk both of you will make light of all these things that appear to be so serious to you, and be that much more companionable.

Many years ago girls of 15 put on corsets probably not because they needed them, but because it was the fashion that was done since it satisfied them that they were grown up and could leave the freedom of childhood behind them. Skirts dropped to the prescribed modesty length, and the flying tresses were wound up into coquettish and foolish coils anywhere over the head. No one was content now at any age if it was possible to get on without them, and even then the corset is reduced to girl-like proportions and only boned when absolutely necessary.

M. H. L.—Faulty elimination is frequently the cause of an oily scalp, and its correction brings about a normally healthy condition that reacts upon the scalp. Shampoo the hair whenever it is oily and use very cold water in the final rinse. A little cold water is good for the scalp afterward and will have the effect of a tonic in such cases as yours.

Mary.—Most women are troubled with superfluous hair as they get rid of it by using the tweezers. You can remove this hair easily if you do not mind the cost of the treatments and the time consumed in having them given.

R. O. W.—You need not be disengaged at being so thin at your age as you are. You will be a good deal fatter in a year or two, and probably have a much better figure because of a somewhat retarded development. Your five feet, three inches, at 10 years of age show that you have attained adult height, which is the best guarantee of having energy to do this. Drink plenty of milk or any other variety of simple and nourishing food, and do not abuse your digestion and clog your system with rich sweets. You will have a clear skin and increase your weight if you do this.

400 ARRESTS MADE  
BY TAMPA POLICE  
OVER WEEK END

Tampa, Fla., November 2.—(UP)—Four hundred arrests were made here over the week-end, making it the busiest in the history of the city, veterans members of the police force said.

The majority of these arrests were for drunkenness and reckless driving. Several wrecks sent persons to hospitals with slight injuries. One negro was held on a charge of stabbing his wife to death.

WOOD MOVES TO FIGHT  
WIFE'S DIVORCE SUIT

Wilmington, Del., November 2.—(AP)—Despite previous announcements of Lieutenant Osborne Wood that he would not contest the divorce action of his wife, formerly Miss Katherine Thompson, of Greenville, near here, a telegram requesting room reservation and the services of a lawyer was received by the manager of the hotel Du Pont tonight. The divorce suit is scheduled to be heard in the local court some time this week.

Lieutenant Wood gained considerable fame, when an officer on the staff of his father, Major General Leonard E. Wood, governor general of the Philippine islands, he was reported to have made a fortune dealing in Wall street, which he later squandered in Europe.

anyone else to do so. Sentiment easily leads to false statements.

Don't use fear as a whip. Fear can only succeed in making slaves, and slaves, even when obedient, are poor substitutes for full human beings.

Don't stress the weakness of your child. He can't take seriously what you point out, and develop feelings of inferiority.

Don't teach your child that he cannot reason. He can and will if you have the wit to help him.

Don't let your home crowd out your child's social life first and always.

Don't be a tyrant to your child, even if you have power. A parent who drives his child from sheer love of dominion runs the risk of losing the child's love.

Don't let iniquity in the home be rampant.

Turn about is fair play. Those parents who "don't" their children on every possible occasion, have a few "don'ts" coming to them.

Ernest R. Groves, professor of social science, Boston university, has formulated a code for parents guaranteeing to bring about a better relationship between the child and its elders. It is also guaranteed to make fearless, honest and honorable grown-ups out of the young material now under training.

On charges similar to those in the contempt order, the government obtained the indictment of John H. Patterson, the president of the National concern, and a number of salesmen and employees. Mr. Patterson and 23 others were sentenced to jail terms of one year.

On appeal from the decision, the defense accepted the proposal of the government to submit to a permanent injunction, restraining such sales methods. The criminal proceedings then were dismissed. The decree has since been in force.

J. T. BEGGS ESTATE  
PROMISES TO PAY  
WISCONSIN TAX

Milwaukee, November 2.—(AP)—Inheritance taxes due Wisconsin from the estate of John I. Beggs, Milwaukee traction magnate, will be paid, Attorney Lawrence Olwell, one of the trustees of the trust fund set up by Beggs, stated today. The announcement disposes of a theory of state and county officials that a legal residence of the testator established in Florida and subsequent filing of the will in that state was accomplished in order to defeat the collection of the Wisconsin tax. The estate is estimated at between twenty and fifty million dollars. Inheritance tax based on those estimates would bring Wisconsin between three and five million dollars.

Mr. Olwell announced that ancillary proceedings would be started in Walworth county by the filing of the will.

AUTO ACCIDENT  
DEATH TOLL DROPS  
DURING MONTH

Washington, November 2.—(AP)—A slight decrease in the total number of automobile fatalities in the 59 cities for which the department of commerce compiles monthly reports was shown in its figures announced today for the four weeks ending October 10. The total of 455 deaths shown for that period compares with 461 in the previous four weeks.

Cities on the list which reported no fatalities for the four weeks last covered were Grand Rapids, Kansas City, Kan.; Washington and Wilmington, Del.

The department's figures show 3,973 automobile fatalities reported in 59 cities from January 1 to October 10 last as compared with 4,345 from January 1 to October 31, 1924.

Figures for some of the larger cities for the last four weeks covered and for the year up to October 31 are as follows: Atlanta, 350; Boston, 49; and 435; Philadelphia, 35 and 226; St. Louis, 12 and

### 67 TO 70-POINT ADVANCE ON NEW ORLEANS EXCHANGE

New Orleans, November 2.—(AP)—

The cotton market was a very active market from start to finish today, and prices advanced steadily throughout the day, starting with an open gain of 20 to 22 points, and finally reaching levels in the late trading of 67 to 70 points above Saturday's close.

The bullish incentives were the continued unfavorable weather in the belt, an increasing number of reports of damage from the recent bad weather, the improved technical position of the market, the large exports for the day and the covering of New York shorts for over the holiday tomorrow on account of election day.

The close was a few points off from the day's high, with gains of 60 to 64 points.

At the start, Liverpool cables were much better than, and as weather reports were unfavorable, first trade hours showed gains of 20 to 22 points.

Then a slight reaction right after the opening call, which started December down to 18.10, January to 18.12 and March to 18.13, still 10 to 15 points above Saturday's close.

The price soon rallied again and kept on an upgrade all day until in the last quarter of an hour of trading, December traded up to 18.65, January 18.69 and March 18.65, or 67 to 70 points above the close Saturday.

The advance was helped during the afternoon by the covering of New York shorts, owing to the fact that tomorrow will be a holiday in the northern market.

The exports for the day were very large, totaling 261,200 bales, of which Galveston contributed 137,770 bales, Houston 83,143 and Savannah 31,361. The exchange here will be closed November 11. Armistice Day, and November 26, Thanksgiving Day, both legal holidays.

## High Lights in the Cotton Market

BY THEO. H. PRICE  
Editor of Commerce and Finance

In the cotton market, the week succeeding the issuance of a government crop estimate is now called "convalescent week." The term is an apt one, for these crop estimates paralyze the business of distributing cotton and their effect is coming to be felt in the dry goods trade as well as in the market for the raw material.

Therefore, it is gratifying to learn that the cotton market is recovering. It is to be hoped that this announcement is not a mere gesture, for another year would result in killing the market for cotton futures, as the exchanges have announced that this crop guessing habit will be investigated.

It is reported that "good ordinary" and below are selling at very wide discounts in some markets of the south, and the fact that these lower delivery dates find their way here on contract has led to some selling of December by those who are known as "free riders" in the parlance of the exchanges.

But the rumpus raised over classification of the cotton has made the official classes very careful, and the fear that any substantial amount of unspinnable cotton may creep into the certified stocks is probably without warrant.

Reports from the south indicate an improvement in the textile industry there and the demand for American cotton has been somewhat quickened by the reduced estimates of the East Indian crop that have been cabled to the day.

The day goods trade in this country appears to be in a better condition, and if its animation were not suspended by the coma that precedes and the shock that follows the government estimates, the cotton manufacturers would have but little to complain of.

If this were to be borne out, the present price level may turn out to be the irreducible minimum until the final estimate is published in December and the trade is able to determine whether there will be any surplus of consequence available from this year's crop.

As this is written, there is a feeling that the indentation weather promises so many parts of the south have restricted ginning during the latter half of October and that the facile crop reporting board may thereby be led to reduce its next estimate slightly.

If this were to be borne out, the present price level may turn out to be the irreducible minimum until the final estimate is published in December and the trade is able to determine whether there will be any surplus of consequence available from this year's crop.

## Foreign Trade Council Predict Return to Normal Of World Trade Next Year

### Statistics Show That World Exports Have Nearly Reached Figure of Pre-War Days.

New York, November 2.—The world will be back to "par" next year.

That is the opinion of the national foreign trade council which has been studying international trade figures from 1913 to the present. The report shows that the world trade has almost recovered from the blow delivered it by the world war.

The trade council finds that the 15 principal exporting nations of the world, including the United States which has more than 80 per cent of the world's trade, show a combined total of exports at the end of the 1925 fiscal year of about 15,000,000,000.

Exports in 1913 amounted to \$15,800,000,000, and comparing this with 1925 figures, the council declares "the proportionate recovery is within 5 per cent."

These figures allow for all deflation and are reduced to 1913 values and to bread, meat and clothing values.

The council believes that the world war shook world trade so that it will have taken 12 years to recover.

To the United States goes a major portion of the credit for restoration, as America's increase in the value of her world trade has been more than twice that of 1913. Our country with a gain of 90 per cent; Japan, with 64 per cent; and Australia, with 34 per cent—all have exceeded the proportionate gain of America, but our increase amounts to \$800,000,000—in excess of the United Kingdom and Great Britain's 5 1/2 per cent.

Russia shows the greatest reduction, 84 per cent, which is the heaviest loss in real trade suffered anywhere in the world.

Assuming a return to the "layman" that France has gained more than any other European country. In 1913 her exports were \$1,328,000,000 and at the end of the fiscal year they amounted to \$1,650,000,000—A 25 per cent gain.

**ODY RECOVERED FROM S-51 HULL IS IDENTIFIED**

Newport, R. I., November 2.—(AP)—A body recovered by divers yesterday from the sunken submarine S-51 was identified today as that of Henry L. Crawford, radio man of Ardmore, Okla. Identification was made by means of finger prints, a monogram, ring and an initialed belt buckle. The body was ordered shipped today to Ardmore.

**COURT OF APPEALS UPHOLDS M'CALL IN FLEET CLAIMS**

Washington, November 2.—(AP)—The District of Columbia court of appeals today upheld Comptroller General McCarlin in his refusal to take jurisdiction of a claim against the fleet corporation for the building of ships during the war by the Skinner & Eddy Co. of Washington state.

**MURDER OF GIRL MAY BE RESULT OF INDIAN RITE**

Eureka, Cal., November 2.—(AP)—Theory that Carmen Wagner, 18-year-old girl found murdered near here recently, may have been killed in accordance with sacrificial rites of an ancient Indian tribe by a descendant of the tribe, was advanced by Dr. E. O. Heinrich, Berkeley criminologist, who returned to Eureka after visiting the place where the body was found buried.

About 300 yards away, Dr. Heinrich said he had found an ancient altar where the girl may have been sacrificed by the person who first shot and killed Miss Wagner's companion, Henry F. Meige.

**GENESIS POINT SALE RECALLS WAR HISTORY**

Savannah, Ga., November 2.—(AP)—An interesting bit of civil war history is recalled with the sale here of Genesis Point, one of the most beautiful spots on the Geechee river, in Bryan County.

Genesis Point was the site of Fort McAllister, built early in the stream by the Confederates. Twice war between the states at the mouth of the river, but the fort by the Confederates failed to capture the fort by the Union forces from the river, but a land attack on December 13, 1864, proved successful.

Eight demonstrators are being worked in the Thomas county field for the next season, the demonstrators working near Thomasville, Coolidge, Boston, Ochlocknee, Fava and Meige.

She is survived by one sister and several nieces and nephews.

Services were conducted by Rev. John R. Lewis, Methodist minister.

## POLICEMAN SHOT BY DURKIN DIES

Chicago, November 2.—(AP)—Another crime has been charged to Marion J. Durkin, dapper automobile thief and slayer.

Sergeant Harry Gray, shot by the fugitive gunman in his sensational escape from a police trap last Wednesday night, died early today.

It was the second death in the costly attempt to capture the slayer of Edward Shanahan, government agent. Lloyd Austin, uncle of Durkin's sweetheart, Betty Werner, in whose home the ill-fated police trap was laid, died of wounds received in a general shooting affray, from which Durkin escaped unharmed.

When news of Gray's death was flashed, police redoubled efforts to apprehend the "steel-vested" bandit, who vowed that he would not be caught alive.

The Werner woman told police today that Durkin had threatened to commit suicide had his capture appear certain.

In his career as an automobile thief Durkin wounded five policemen before he was shot. Shanahan, who attempted to question him concerning a stolen automobile.

### Stirling Party To Leave Coast On November 12

San Francisco, November 2.—The Stirling expedition to the wilds of Dutch New Guinea in search of information regarding the Pygmy race reported existing there, will leave the orient November 12.

The first leg of the journey, by airplane from Chicago to San Francisco, was completed late Saturday. Captain Matthew W. Stirling, who is in charge of the expedition under auspices of the Smithsonian Institution, and the National Museum of Washington, said that his party would sail from here on the steamer President Vanburen.

The party is by way of Singapore and Australia.

Four members of the expedition made the trip from Chicago. H. H. Hoyte piloted the plane and will have charge of flights into the territory to be explored. A cameraman, reserve pilot and an astrophotographer completed the group, who was not named.

"Two previous expeditions have failed because of hardships, tropical diseases and hostile natives," Stirling said, "but with the use of the plane and the aid of a military escort we feel we will be successful in our adventure."

The party leaving here will include R. Hudson Burr, chairman, and A. S. Wells and E. S. Matthews, members of the commission; Fred H. Davis, attorney; Fred Pettyjohn, analyst, and J. H. French, geologist.

An effort will be made to get Governor Martin to testify at the hearing, while the executive is en route this week from Lakeland to Gainesville, Mr. Davis said. The claim for the record scale of the commission, the commissioners, the governor and the attorney general hinge directly upon Florida's growth during recent years, and no one, he added, is in a better position to point out the development of the state than Governor Martin.

The governor's trip to Lakeland and thence to Gainesville is to be for the purpose of addressing the annual convention of the Florida Association of Real Estate and Confederate Veterans, respectively.

The Orlando hearing, Mr. Davis said, may continue for days. The two weeks it is to last, the state of Florida, he added, may be gathered enough to force this to a safekeeping. Happened October 25, 1925. Written by Teo Teo.

The message countermanded by Captain H. E. Stirling was found in a bottle in the St. Lawrence river near the lighthouse at St. Felice, Quebec, October 29. It was written in Dutch and following its translation was sent to the department of marine and fisheries at Ottawa.

**MISS MARY WHITEHEAD DIES AT SPARTA HOME**

Sparta, Ga., November 2.—(AP)—Theory that Carmen Wagner, 18-year-old girl found murdered near here recently, may have been killed in accordance with sacrificial rites of an ancient Indian tribe by a descendant of the tribe, was advanced by Dr. E. O. Heinrich, Berkeley criminologist, who returned to Eureka after visiting the place where the body was found buried.

About 300 yards away, Dr. Heinrich said he had found an ancient altar where the girl may have been sacrificed by the person who first shot and killed Miss Wagner's companion, Henry F. Meige.

She is survived by one sister and several nieces and nephews.

Services were conducted by Rev. John R. Lewis, Methodist minister.

Save the sun and  
you save all.

Right now, paint right!

Weeks of good drying weather are ahead. Dust no longer will cloud freshly-painted surfaces. The flies are mostly gone. It is a fine time of year to paint.

Each dime you invest in TRIPOD PAINT at this season buys a dollar's worth of protection against the soon-to-come winter weather. What is more; it buys you the kind of paint you hope to get for your money.

The Tri-Weekly Constitution gets the same immediate and careful reading in country homes which daily papers get in city homes.

It is delivered every-other-day by rural carrier into over 100,000 well-to-do farm homes.

These farmers pay the full subscription price, and pay it in advance.

The Tri-Weekly Constitution carries the news of the world every-other-day into these homes—it takes the place of a daily paper.

The trade of the farmers of the Southeast is well worth going after.

BISHOP, 14 PRIESTS  
ESCAPE TO AVOID  
MARRIAGE DECREE

Mexico City, November 2.—(UPI) Reports from the state of Tabasco say that Bishop Pascal Diaz and 14 Catholic priests have fled from that state to escape the requirements of the decree that priests of all creeds must marry in order to exercise the duties of their office.

It is reported that the bishop and his fellow refugees are coming to Mexico City to protest to President Calles that the state of Tabasco's decree amounts to religious persecution.

Five priests in Tabasco already have been arrested because they refused to be married.

ATLANTAN SUED  
FOR ANNULMENT;  
BIGAMY CHARGED

New York, November 2.—Warren Vincent Smith, a New York newspaper man and son of Franklin Smith, Atlanta, Ga., business man, was sued by Mrs. Dorothy Smith, 19, his second wife, Monday, for annulment of their marriage. Smith already is charged with bigamy.

Mrs. Dorothy Smith said in the papers, filed before Supreme Court Justice Benedict in Queens county, that she married Smith March 1, 1925, and that in August, Mrs. Frances Sawyer, 22, of 222 Kenmore Place, Brooklyn, had Smith arrested for bigamy. She said Smith had married in Detroit, December 23, 1922. She also was in court Monday and declared she soon would begin suit for divorce.

Mrs. Dorothy Smith's counsel is Helen L. McCormick, former assistant district attorney of Kings county here.
